SUBJECT: Intelligence Oversight Legislation

Attached is a copy of S.1721, as marked up by the SSCI on 17 December. As we have discussed, almost all of our concerns have been addressed. I will be sending you shortly our proposed legislative history to the definition of special activities. The SSCI intends to report S. 1721 out of Committee on the 27th of January.

I have also attached a copy of the oversight legislation Chairman Stokes intends to introduce early next session. The bill closely resembles S. 1721. The HPSCI intends to have a public hearing in early February. There is a good chance the DCI will be invited to testify.
